

CONTENTS

Preface	3
1. Breast cancer	7
Case 1 – potentially operable tumor	pictures 1–3
Case 2 – skin hemangioma.....	pictures 4–6
Case 3 – potentially operable cancer.....	pictures 7–9
Case 4 – ulcerated cancer	pictures 10–12
Case 5 – self-amputated breast	pictures 13–15
Case 6 – ulcerated, inflamed with treatment	pictures 16–21
Case 7 – cauliflower-like tumor.....	pictures 22–24
Case 8 – inoperable, skin-spreading	pictures 25–27
Case 9 – advanced with skin induration	pictures 28–30
Case 10 – treatment resistant.....	pictures 31–33
Case 11 – inoperable with abscess.....	pictures 34–36
Case 12 – cauliflower-like with treatment.....	pictures 37–43
Case 13 – gigantic tumor with treatment.....	pictures 44–48
Case 14 – cauliflower-like with cachexia and treatment	pictures 49–53
Case 15 – both breasts with extremity edema and treatment.....	pictures 54–63
Case 16 – dissemination to scapula.....	pictures 64–66
Case 17 – paraneoplastic eye syndrome	pictures 67–69
Case 18 – dissemination to orbit, umbilicus and lymph nodes.....	pictures 70–74
Case 19 – dissemination to abdomen soft tissues and treatment	pictures 75–80
Case 20 – solitary skin metastases.....	pictures 81–83
Case 21 – local progression with post-radiotherapy effects.....	pictures 84–87
Case 22 – advanced male cancer	pictures 88–91
Case 23 – ulcerated male cancer.....	pictures 92–93
2. Lung cancer	75
Case 24 – chest deformity	pictures 94–96
Case 25 – chest pathologic mass.....	pictures 97–101
Case 26 – armpit metastasis with cachexia and drummer’s fingers.....	pictures 102–107
Case 27 – tumor penetrating through chest wall	pictures 108–109
Case 28 – neoplasm resistant to treatment	pictures 110–119
Case 29 – vena cava superior syndrome with massive edema.....	pictures 120–122
Case 30 – cancer embolisation of skin.....	pictures 123–126
Case 31 – vena cava superior syndrome with lymph nodes invasion	pictures 127–129
Case 32 – multiple skin metastases with treatment	pictures 130–134
Case 33 – solitary skin metastases with treatment.....	pictures 135–139
Case 34 – soft tissue and lymph nodes dissemination.....	pictures 140–144
Case 35 – adverse effects of chemotherapy	pictures 145–147
3. Head and neck cancer	113
Case 36 – throat cancer with lymph nodes metastases	pictures 148–150
Case 37 – massive lymph nodes metastases from tongue cancer	pictures 151–153
Case 38 – treatment history of disseminated larynx cancer	pictures 154–170
Case 39 – neoplasm-looking multiple lipomas	pictures 171–173
Case 40 – ulcerated ear cancer with treatment.....	pictures 174–179

Case 41 – disseminated larynx cancer with treatment.....	pictures 180–183
Case 42 – Hurthle cell carcinoma.....	pictures 184–187
Case 43 – basal cell carcinoma.....	pictures 188–190
Case 44 – monstrial orbit tumor	pictures 191–192
4. Gastrointestinal tract cancers	149
Case 45 – ascending colon cancer metastases to inguinal lymph nodes.....	pictures 193–195
Case 46 – colon cancer metastasis to umbilicus with treatment.....	pictures 196–199
Case 47 – disseminated to hip rectal cancer with treatment	pictures 200–203
Case 48 – skin reaction to anti-EGFR therapy	pictures 204–207
Case 49 – local skin reaction to 5-fluorouracil	pictures 208–209
Case 50 – massive skin desquamation after 5-fluorouracil.....	pictures 210–220
Case 51 – gastric cancer dissemination	pictures 221–224
5. Gynecologic cancers	175
Case 52 – endometrial cancer disseminated to abdomen.....	pictures 225–227
Case 53 – ovarian metastasis to umbilicus.....	fotografia 228
Case 54 – ovarian carcinoma with ileus, ascites and treatment	pictures 229–234
Case 55 – fingers necrosis with cancer of ovary and treatment	pictures 235–238
6. Male reproductive system cancer.....	189
Case 56 – prostate cancer dissemination to inguinal lymph nodes.....	pictures 247–249
Case 57 – skin reaction to taxotere	pictures 242–243
Case 58 – scrotum tumor	pictures 244–246
7. Sarcomas.....	197
Case 59 – arm malignant myxoma.....	pictures 247–249
Case 60 – abdominal low grade sarcoma	pictures 250–253
Case 61 – dermatofibrosarcoma protuberans.....	pictures 254–256
8. Malignant melanoma.....	205
Case 62 – typical skin dissemination	pictures 257–260
Case 63 – head tumor with solitary lesions	pictures 261–264
Case 64 – gigantic primary tumor.....	pictures 265–267
Case 65 – disseminated melanoma with treatment	pictures 268–275
9. Hematologic neoplasms	219
Case 66 – skin DLBCL CD 20 +	pictures 276–278
Case 67 – skin DLBCL CD 20 +/-	pictures 279–281
Case 68 – cutaneous T-cell lymphoma	pictures 282–287
Case 69 – MALT lymphoma of conjunctiva with treatment	pictures 288–292
Case 70 – chronic lymphocytic leukemia.....	pictures 293–295
Case 71 – mycosis fungoid lymphoma	pictures 296–302
Case 72 – cutaneous T-cell lymphoma	pictures 303–307
Case 73 – T-cell lymphoma with nodes involvement.....	pictures 308–312
Case 74 – pyogenic complication of Hodgkin’s disease treatment.....	pictures 313–315
